Election/Restrictions

This application contains claims directed to the following patentably distinct species:

1) the esters which are liquid at ambient temperature possessing an aromatic group, said esters resulting from the esterification by an aromatic acid of at least one pendent hydroxyl group or hydroxyl group at a chain end of a hydroxylated aliphatic compound selected from the group consisting of hydroxylated aliphatic acids and their esters;

2) pasty compounds other than lanolin or its derivatives;

3) oils of high molar mass of between 650 and 10,000 g/mol.

The species are independent or distinct because each of the species is a unique compound and requires a unique search for the prior art. Searching all of the compounds presented in the claims would constitute an undue search burden on the examiner and the USPTO's resources because of the non-coextensive nature of these searches.

Claims 1, 13, 14, and 41 are generic to the esters of group 1); Claim 2 is generic to the pasty compounds of group 2); and Claim 28 is generic to the oil compound of group 3). Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Applicants are required to elect **1) one single ester compound; 2) one single pasty compound; and 3) one single oil compound.**

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added.

An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.
